Hartington, NE Store*

Think Spring!

Wow, what a year it has been so far. We are a quarter into 2016, we have had bitter cold close to two feet of snow in a days time and shortly after 70 degree weather. One thing is for sure, no matter what Mother Nature throws at us, the grass will turn green, the leaves will soon be growing on the trees and the tractors will be in the fields. It has been a busy 1st quarter at the Hartington store also. The biggest change has been the addition of three overhead cranes in the shop. We have added 1 three ton crane that spans 76' X 72', which covers two thirds of the tractor shop. We also added a pair of two ton cranes that span 48' X 28' which covers both sides of the new shop. The divider wall between the shops has been removed and the shop looks great! We have added additional bays, which means additional space for each tech. One other change made in the shop- Justin Dickes has now taken over as Service Manager. Justin has been with Grossenburg Imp. in the AMS department for several years. Matt Helmer has taken the position of Shop Forman and will be around to help answer phone calls, help with customer questions and needs, and will be in the shop repairing equipment.

GROSSENBURG IMPLEMENT New Equipment Programs

May expire or subject to change prior to April 30, 2016.

Compact Utility Tractors

JOHN DEERE FINANCIAL

GROSSENBURG IMPLEMENT, INC. TERMS AT THE POINT OF SALE ARE CASH, CREDIT CARD OR JOHN DEERE FINANCIAL MULTI-USE ACCOUNT (FARM PLAN)

Grossenburg Implement would like to invite those of you who do not use the John Deere Financial Multi-Use Account to apply for an account today. This account would be used for your everyday purchases of parts and service. There are many benefits for the customer. John Deere Financial sponsors many No Payment/No Interest programs that the customer could take advantage of with a Multi-Use Account. Some of these programs are seasonal with planter parts programs in the spring, harvest parts programs in the fall and our promotions on all shop repairs in the winter. With these No Payment/No Interest programs you can push your payments out, which will help you improve your cash flow. Everyday purchases without a program will also allow you to stretch out your payments by making monthly payments.

Please stop at one our six locations and consider filling out a short application. You can either fax or mail it in or bring it to one of our locations

and we will fax it in for you.

Spring has Sprung!

Written by John Dreesen
Corporate Warranty Manager/
Corporate Service Manager
Hartington, NE Store

If you have not gotten your tractor and planter out of the corner of your shed and into Grossenburg's shop for their annual inspection, there is still time. When you have the inspection done by a Grossenburg technician you can be assured it is done by the best. When doing the repairs we use only GENUINE JOHN DEERE PARTS. So if you are thinking of using anything else, then your GENUINE JOHN DEERE PLANTER or TRACTOR will not be a GENUINE JOHN DEERE IMPLEMENT anymore. When using GENUINE JOHN DEERE PARTS you get another bonus- GENUINE JOHN DEERE WARRANTY, something you don't get with aftermarket parts.

At Grossenburg Implement, we are continually updating our shops. We have added onto our Bloomfield location. Currently we are in the process of adding onto Philip's shop as well. All shops have overhead cranes to handle the big jobs and all shops are air conditioned to help the technicians stay efficient while working on your equipment. We are constantly purchasing special tools needed to get the job done right the first time. Grossenburg Implement has service vehicles if the job needs to be done on your farm or in the field.

After the planting rush is over, don't park that planter in the back corner of the shed and forget about it until next spring. Bring it into Grossenburg's shop for an inspection right now so any little problems or concerns that may have come up during the planting season are still fresh in your mind and so it is ready to go for next year. With that being said, we have had good moisture this winter and are looking for a good spring planting and are hoping for a good crop this fall.

Thank you for your past business and we look forward to working with you in the future.

Grossenburg Bulk Products: In Stock and Convenient for You

Written by Terry Korth
Corporate Parts Manager
Hartington, NE Store

Parts- The many reasons to buy in bulk

Grossenburg DEF, or Diesel Exhaust Fluid, is in stock at all 6 Grossenburg stores.

DEF is available in many convenient container sizes such as:

- 2.5 gallon Jug
- 55 gallon Barrel
- 330 gallon Tote

JOHN DEERE

Reasons for containers:

- Sealed and in clean container
 - Less evaporation issues
 - Easy to exchange
- Able to transport to field
 - Many pump variations
 - Same price as bulk
 - Less contamination issue
- No extra cost of a transport tank- just a deposit

BULK OIL

- Available in John Deere 15W40 and Hygard
 - Bulk on farm delivery
- At store 20 to any size gallon fill up
 - Bulk oil storage tanks and stands

Quality, Features and Benefits of

Grossenburg DEF

- Our DEF is made from liquid 32.5% urea and 67.5% deionized water
 - ISO 22241 Quality assured
 - API certified

Typical Usage Rates of Grossenburg DEF

John Deere Engine

- 6.8 liter 0.4 L/hr (0.1 gal./hr)
- 9.0 liter 0.8 L/hr (0.2 gal./hr)
- 13.5 liter 1.1 L/hr (0.3 gal./hr)

With any of our bulk products we have many different pumping options available to fit yours needs. Just stop in and check with your Grossenburg parts department on pricing and configurations.

AMS - Data Management

Written by Justin Dickes
Service/AMS
Hartington, NE Store

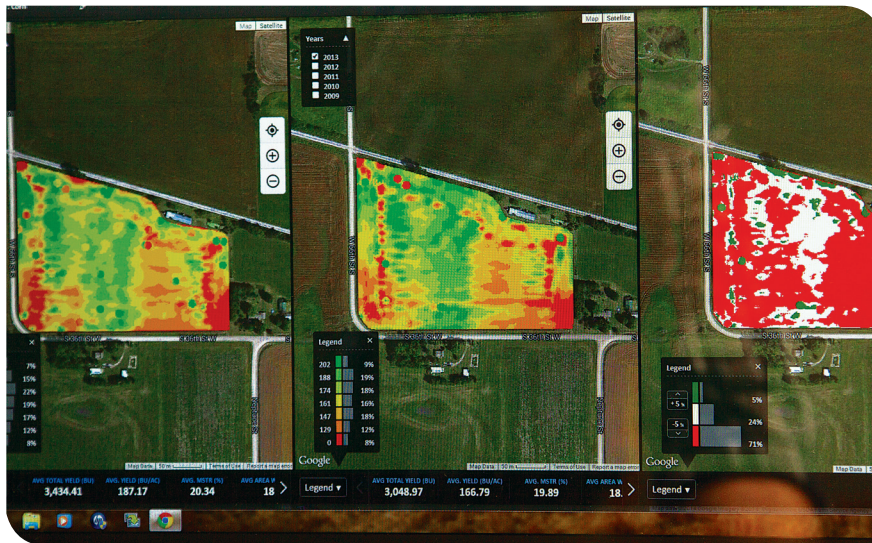

Employee Spotlight

Justin worked for Northeast Equipment for 6 years as AMS Specialist/Shop Technician. He left for 2 years and was an Electrician/Service Tech for Heine Electric. Justin has now been at Grossenburg for little over a year. He is a Master Level Certified John Deere Technician since 2010.

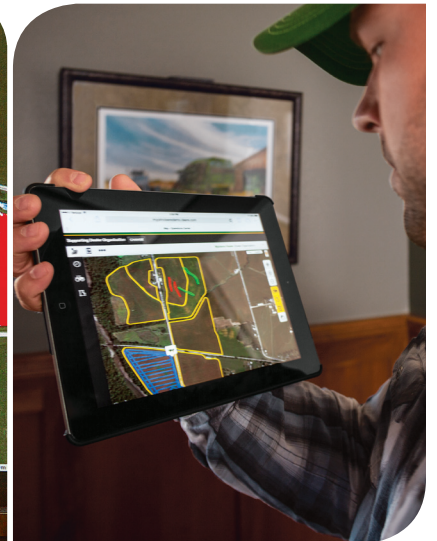

Data management along with the latest technology advancements have enabled producers to optimize yield and manage farming practices more efficiently than ever before. Producers have been using Autotrak to reduce passes and operator fatigue, swath control to save on inputs and increase yields, and mapping software to make better decisions for their operations for years now. The challenge now is how do producers take all this information and technology and use it to make their operation as efficient as possible. At Grossenburg's we feel that we can be the solution to this problem. We have trained solution specialists who can diagnose and repair issues with hardware/software, train you on new products and assist with management of your MyJohnDeere.com account. MyJohnDeere.com enables producers to manage all of their data both past and present as well as share this data with those they partner with in a single location making it possible to get more done in less time. With MyJohnDeere.com producers can send field data to agronomists, ASP's, COOP's and others directly from their 2630 display. This allows the data to be analyzed and prescriptions can be created and sent back to their 2630 ready to use without ever leaving the field. This provides a single solution for third party integration. MyJohnDeere.com also provides a single solution for equipment management through JDLink, Fieldconnect and JDParts. With JDParts customers can select their local dealer and view parts breakdowns, inventory levels and parts pricing as well as send parts list to dealer for pickup eliminating unnecessary trips. So stop in and talk to your local Grossenburg dealer and let us help you find a solution for your operation this season.

Service - Never Too Early

Written by Justin Dickes
Service/AMS
Hartington, NE Store

Never too early to prepare for next season. As you pull your planter or seeder out of that last field and head home for the year, don't forget to stop by your local Grossenburg dealer and have your equipment inspected. Inspecting now not only saves time next spring, but you won't have to try and remember that question you had from last year. Annual inspections are an integral part of every producer's operation as they are the first line of defense against major repairs and untimely breakdowns during the season. While you're here don't forget to talk to your service manager so you can take advantage of current programs and financing options to suit your operation.
