Year End Wrap Up

As another year draws to a close, it's a good time to look back at how 2016 has turned out so far. Summer harvest has once again produced great yields around our South Dakota area, fall harvest looks like it will be very good as well and the hay crop, for the most part, has been unbelievable this year. Prices haven't been where we want them, but we have been very fortunate with moisture and yields across the board. As the fall season is approaching, we at Grossenburg Implement strongly encourage our customers to check over their equipment and get your sprayers and planters winterized, check over loader tractors and feed wagons, and make sure the combines and grain carts are ready to roll this fall. We are currently offering our Winter Promo program right now as well with No Payment/No Interest for 180 days through JD Farmplan. This is a great opportunity to get your equipment checked out and prevent in-season breakdowns. Many of our customers run their equipment through this program every year to every other year and most of them would agree that it is a great benefit and increases their uptime. On the equipment sales side of the business, we have noticed a major increase to the number of pieces of equipment that are being sold on leases. From combines, tractors and windrowers to balers, feed wagons and grain carts, leasing has become a huge trend in the industry with one of the major benefit being smaller yearly payments to help out with cash flow, among other benefits as well. Leasing won't be for everyone, but keep in mind that it is another option that is out there and could very well be worth your time to look into, especially if you are adding a piece of equipment with no trade-in. Lastly, from myself and the rest of the Grossenburg family, as well as our employees and their families, we would like to thank all of you for your business and wish all of you a wonderful holiday season with a bountiful fall harvest and a prosperous start to the 2017 year.

Improve Your Cash Flow

Grossenburg Implement is implementing a new policy and it has one great advantage for both you and us. **IMPROVED CASH FLOW.** Grossenburg Implement has begun to phase out in-house charge accounts and move them to John Deere Multi-Use accounts.

John Deere Multi-Use charge accounts will be used for all your daily parts and service purchases. There are many advantages of this change for you and they all boil down to **IMPROVED CASH FLOW.** The Multi-Use accounts from John Deere offer many No-Interest / No-Payment programs that let you push your payments out 120 to 180 days. That way you can schedule your payments when they best fit your plans.

John Deere Multi-Use accounts also come with their version of credit card bonus points. For every \$1,000 purchased using the John Deere Multi-Use charge account you will receive a \$10 off coupon (valid at any Grossenburg Implement location). Very simply, \$10 for every \$1,000 purchased. All you need to do to start taking advantage of the John Deere Multi-Use account benefits is to fill out a short one page credit application. You can do this by stopping in at any of our six locations or online at www.johndeerefinancial.com.

Help yourself by starting to use a John Deere Multi-Use account today and **IMPROVE YOUR CASH FLOW.**

Old Farmer

On a Lighter Note...

PETA

A few years ago, some folks from the PETA (People For Ethical Treatment of Animals) and the U.S. Forest Service were at a farm meeting presenting an alternative to West Virginia sheep producers for controlling the coyote population. It seems that after several years of the farmers using the tried and true methods of shooting and/or trapping the predator, the animal rights folks had a "more humane" solution.

What they proposed was for the coyotes to be captured alive, the males castrated and let loose again and the population would be controlled.

All of the shepherds at the meeting thought about this amazing idea for a couple of minutes.

Finally, an old man in the back stood up, tipped his hat back and said, "Son, I don't think you understand the problem. Those coyotes aren't mating with our sheep..... they're eatin' 'em."

An old farmer was walking down the path to the pond when he spotted a bullfrog.

He reached down and grabbed the frog and started to put him in his pocket when the bullfrog said, "Kiss me on the lips and I will turn into a beautiful farmers wife."

Again the old farmer started to put the frog in his pocket.

The frog asked,

"Didn't you hear what I said?"

The farmer looked at the frog and said, "At my age I'd rather have a talking frog."

Fall and Winter Programs

Another summer is coming to a close and fall is upon us, and with fall comes a lot for farmers and ranchers to prepare for. Summer harvest was excellent, up around our South Dakota stores with wheat yields averaging very well across the board for both winter and spring varieties. Next will come the task of getting next years' winter wheat in the ground and at the same time, prepare for fall harvest. Despite how busy it has been and will continue to be, this is the time of the year to keep many things in mind as far as servicing your equipment goes. As the weather gets cooler, it is time to start preparing to winterize equipment, especially implements that can freeze. Such as self-propelled sprayers and fertilizer systems on planters, as well as checking your cold start systems and block heaters on tractors. Also, don't forget to check antifreeze levels on all equipment you will be using in the cooler weather.

Fall is also the time of year when we at Grossenburg Implement offer Promo programs for your various pieces of equipment. When scheduling your Promo, ask the shop about our 180 day No Payment, No Interest plan through John Deere FarmPlan, which starts November 1st, 2016. Included in this program is free trucking within 150 miles of one of our stores and other options in this newsletter. Now is a great time to take advantage and schedule your equipment to come in and get inspected by one of our factory trained technicians. We highly recommend getting into a routine of running your equipment through our Promo programs and I think you'll notice a difference over the course of time with better running equipment and less costly time lost due to in-season breakdowns.

Grossenburg STORE HIGHLIGHTS

WAYNE, NE

- Ag and Turf Equipment Sales, Parts and Service
- Reinke Center Pivot Systems Sales and Service
- Sioux Steel Grain Bins, Hoop Structures, and AgriDry Grain Bin Monitoring Systems
- Service Dept. Equipped with 1 Truck/Service Body with Crane, 5 Service Vehicles with In Field Service Capabilities (Air, Electricity and Welder)

We're Here to Keep Your Equipment Running Smoothly

Written by Ed Turgeon
Parts Manager
Winner, SD Store

Fall harvest is upon us. The days are shorter and the nights cooler. I would like to remind our customers that John Deere Financial (Farm Plan) saves you money with competitive interest rates and No-Payment/No-Interest Finance opportunities.

This could all you up to 6 months of No Payments with No Interest to better manage your cash flow.

Did you know we sell DEF (Diesel Exhaust Fluid)? DEF is just one of the Tier 4 fluids we sell to keep your equipment running smoothly. We offer DEF in 2.5 gallon jugs, 55 gallon barrels and 330 gallon totes. We also offer DEF pumping equipment and portable dispensing units.

With the cooler days you should start thinking about an Anti-Gel fuel additive for your equipment.

We offer a full line of fuel additives to protect your equipment all year long.

In closing we wish you and your family a safe and prosperous harvest.

Come see us for all of your growing needs!

**Don't forget to ask our parts staff
about pre-ordering John Deere
CoverEdge™ Netwrap for 2017!**
